AstroLog II: Family, Relationships & Health Creators of their own system of astrological psychology and founders of the Swiss Astrological Psychology Institute, Bruno and Louise Huber have taught a new dynamic direction of astrology for over forty years, summarised in their eight books on astrological psychology. There is now a substantial body of experience in the use and refinement of the 'Huber Method' documented in the German-language magazine 'AstroLog'. AstroLog II presents a second selection of articles, by various authors including the Hubers, translated into English for the first time. Their subjects relate to astrological psychology and its use in the context of family members, personal relationships and individual health.
